

Tailored shirts - Victoriano

How to do it? You will need a tailor's tape measure. Ideally wear a shirt or T-shirt when measuring. (More layers would add a few extra cm). Do not hold your breath and take a natural posture.

Neck circumference

Measure the circumference of the neck at the base of the neck with the thumb below the meter. Select such a circuit that you will feel comfortable when you turn on the last button according to picture.

.....cm

Shirt length

Measure from the end of the collar (approx. from the seventh cervical vertebra) taking into account the sigmoidal curvature of the spine to below the background as shown.

.....cm

Length of the sleeve

Measure from the shoulder joint to the root of the thumb with a natural posture of the body and arm (according to the picture)

.....cm

Chest circumference

Measure across the widest point of the chest and back with the thumb below the meter (according to the picture)

.....cm

Waist circumference

We measure through the narrowest place in the waist with a subordinate place under the meter (according to the picture)

.....cm
